

Price Guide

Updated March 2022

It is difficult to put together a fully comprehensive price list as no two animals' problems are exactly the same.

This guide gives you an overview of some of the standard and fixed prices for our consultations and procedures. However, individualised estimates are always given to clients at the time of their consultation.

All of the prices below are inclusive of an initial consultation and up to one day/one night hospitalisation, as well as VAT.

Orthopaedics, Physiotherapy and Neurology

Prices do not include preoperative blood tests, dispensed medications/collars, or additional charges related to other health issues/complications.

Additional anaesthesia fee for brachycephalic breeds is approximately £130.

Initial consultation	£225
Up to one hour appointment slot, with a surgeon/neurologist	
Follow-up consultations	£96
